Dear Mr. Chudey,

Thank you for your interest in our research. I cannot go into the details here, but am enclosing a reprint of a publication in *Nature* which may suit your needs. If you would like further details, and have access to a library, you might consult some of my papers:

Journal of Bacteriology, June 1947

Genetics, September 1947

Proceedings of the National Academy of Sciences, April 1949

In addition, I expect that a summary article may appear in "Scientific American" some months from now.

Please let me know if I can be of any further assistance.

Sincerely,

Joshua Lederberg,
Assistant Professor of Genetics.
